

## Inkjetting/Laser

“Give us virtually any size or kind of paper (including coated) and we can image single or variable data on it. We even print on stickies (we’re one of the few shops that can) and attach them for monumental impact.”

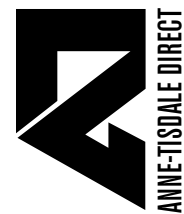

## Handwork

“If it needs to be stuffed, inserted, labeled, or collated, we’ve got you covered. And we do it quickly and correctly, no matter the size, shape, or just plain weirdness of your items.”

## Mailing lists

“We’re ‘recognized list brokers’ which is a big-brained way of saying that our peers know that we know what we’re doing. We have access to literally thousands of relevant, up-to-date mailing lists to make sure your message reaches the people you want to reach.”

ANNE-TISDALE DIRECT

Friendly faces and more inside. Really.

# Find out what makes Anne-Tisdale Direct numero uno in customer service.

## Yeah, we’re that good.

Mailing Lists? Inkjetting? Laser? Handwork?  
Anne-Tisdale Direct is the single solution for whatever mails you.

# It's really that simple.

**“Anne-Tisdale Direct is the only mailshop you need for affordable inkjetting, handwork, fulfillment, mailing lists, and a lot more. With 25 years of experience and state-of-the-art equipment, we’ve got the people and the skills (and the people skills) to handle any sized job quickly, correctly, affordably, and pleasantly.”**

–Judy Antisdal, *Owner*, Anne-Tisdale Direct

## We're the top-dog Customer-servicely speaking

### Got questions? We're experts in mailpiece design

Just like your shop teacher, we're a stickler for safety. Our mail design knowledge prevents mistakes before pieces reach the post office.

We also offer design analysis to our clients or their vendors to ensure all mailings are postal-regulation compatible even before they're printed. It's a free service, and it's one that can save you a lot of time and money.

### Need help identifying your audience or stretching your dollars even more?

We'll help you determine your target and break down appropriate candidates so the list you get is the right one for your goals. And we do it fast, friendly, and for less than you think.

Another way we save you money is through our inkjetting services. Bring us your preprinted shell and we can add anything you want –spot colors, teasers, logos, indicias, and more.

### Unique mailing needs? Some things need a human touch.

Handwork is just one of the many mailing services we offer—and excel at. From sequence numbers and targeted inserts to odd-shaped or unusual items, we'll take care of them all.

How do we do it? We find talented, dedicated people and give them the training and skills to be successful. Our staff includes seniors, moms, shelter residents, and hearing-impaired individuals all committed to providing choice service to your business.

Plus, you'll always have two account managers on your job and, instead of getting lost in voicemail purgatory, you'll speak to a real, live person immediately.

### Looking Ahead...

Changes are coming. We'll make sure you stay ahead. Intelligent barcodes. Flat-rate design changes. And, because prices are going up on returns, address hygiene. We can clean up your mailing lists to remove bad addresses, so your business stays fresh 'n' sweet.

**Hire the big kahuna for your next large mailing.**  
**(And your medium and small ones, too.)**
